REPORT OF THE VISITORS TO THE QUARTER SESSIONS.

NORTHUMBERLAND.

To Her Majesty's Justices of the Peace for the County of Northumberland in Quarter Sessions assembled, on the 6th day of January, 1864.

The period has again arrived when it becomes the duty of your Committee, the Visitors of the Pauper Lunatic Asylum at Cottingwood, to make their Annual Report to the Bench, under the terms of the Statute (16 & 17 Vic., c. 97, sec. 62.)

Your Committee have again the satisfaction of stating that the Asylum is in a very efficient state and condition, and fully provides for the accommodation of the Officers and Inmates, if the numbers do not increase beyond what they have been during the last year.

In our last year's Report it is stated, that there were in the House, 116 Males and 112 Females (total 228) on the 15th December, 1862 ; and at this time (21st December, 1863), there are 120 Males and 109 Females (in all 229), the greatest number there has ever been in the House, though only one in excess of the preceding year.

Your Committee continue to feel satisfied with the management of the Asylum, under the charge of Mr. Richard Wilson, the Medical Superintendent, and of Mr Hughes his assistant, as well as with the conduct of the Officers and Servants of the establishment, and the mode in which they have discharged their respective duties.

The cost of maintenance for the year ending 31st December, 1862, was 10s. 6d. per week for each Patient, and for the year which will end on the 31st of December, 1863, it has been 9s. 11d. The cost of Provisions and Clothing, are much dearer than during the year preceding ; but your Committee do not advise any alteration in that sum.

For the reasons mentioned in our last year's Report, all Private Patients have been removed.

For all matters of detail, your Committee refer as usual to the Report of the Medical Superintendent, for the year ending 31st December, 1863, and which will be presented to the Bench at the next Easter Sessions. Your Committee cannot however pass over a lamentable case of a Pauper Female Patient, who died from her clothes catching fire. The Jury found a verdict of Accidentally Burnt. Your Committee having carefully read over the evidence, and having also closely investigated the case, quite agree with the Jury in their decision. Although your Committee may congratulate the County on these casualties among such a body of people being so few in number, still when such an event does happen, it is to be deplored, and every precaution must be taken to prevent a like occurrence in future.

The Commissioners in Lunacy visited the Asylum on the 28th January last, and made a most favourable Report of the state of the Asylum and its mode of management ; they again urged the importance of the erection of a detached Chapel.

Your Committee went minutely into the subject, and found the present room in the house used as a Chapel much too small, and that it was necessary to appropriate it as a Workroom, as the Commissioners recommended.

Your Committee reported thereon fully to the Bench, and advised the building of a detached Chapel ; the Justices confirmed their Report, and referred it to your Committee to carry it out.

The plans were prepared by the County Surveyor and finally approved of by the Committee, and received the sanction of the Commissioners in Lunacy, and the Secretary of State.

Tenders were taken in, and Mr. King accepted at £1150. The Works are now in progress.

The Brew-house was another of the recommendations of the Commissioners. The building was estimated to cost £180; this has been erected, and the fitting up and carrying out all measures connected therewith, will be completed during the ensuing season.

The Asylum now contains 229 Patients, and it will only hold 240, the Committee have a power under the 53rd section of the Act, to declare it full, and to reserve the 11 beds for very special cases, this would have been a great annoyance and expense to the County. They found however by trifling alterations in the arrangement of Rooms, they can procure further accommodation (that is, single beds) for 14 Men and 24 Women, making in all 38 beds, and even a few more might be had, they have therefore directed these alterations to be made, rather than declare the Asylum full with 229 Patients. When the Asylum was first contemplated, the returns of Lunatics from the Boards of Guardians, shewed that there were 85 Lunatics in the County, it was a contested point among the Justices whether the Asylum should be erected to hold 100 or 200 Patients, and it was well that the latter arrangement was carried.

Under the same section (53rd), your Committee have felt themselves obliged to make an order to exclude from admission into the Asylum, all persons afflicted with Small-pox, Searlet-fever, or any other contagious and infectious diseases, and persons coming from any district or place in which such disease or malady may be prevalent, subject of course to the discretion of the Medical Officers of the Asylum.

Your Committee have to remind the Court, that it will be their duty at the next Epiphany Quarter Sessions, to select some of their body, not being less than 7, to be Visitors of the Asylum during the ensuing year. The present Committee may be re-elected, and a list of their names accompanies this our Report.

Your Committee would recomend J. P. Mitford, Esq. of Mitford Castle, owing to the contiguity of his residence to the Asylum, as one of the Committee.

All which your Committee submit for the consideration of the Bench.

Dated at the Asylum, this 21st December, 1863.

(Signed.)

A. J. BAKER CRESSWELL,

CHAIRMAN.

CONFIRMATION OF COMMITTEE'S REPORT.

**County of
Northumberland.**

1864.

At the General Quarter Sessions of the Peace of our Lady the Queen, held at the Moot Hall, in and for the said County, on the sixth Day of January, in the twenty-seventh Year of the Reign of our Sovereign Lady Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, before Her Majesty's Justices of the Peace assigned to keep the Peace in the said County, and also to hear and determine divers Felonies, Trespasses, and other Misdemeanors, done and committed therein.

PAUPER LUNATIC ASYLUM, (Annual Report and Election of Visitors).

The Visitors of the Pauper Lunatic Asylum for this County having presented their Annual Report, according to the Statute (16 & 17 Victoria, cap. 97, sec. 62), which was read and considered; Ordered that the same be and it is hereby approved of, and that it be entered upon the Records of this Court immediately after this Order, and it is further Ordered, pursuant to the Statute (16 & 17 Victoria, cap. 97, sec. 22), that the following Justices of the Peace for this County be, and they are hereby appointed, Visitors of this Asylum for the year ensuing, namely :—

1. SIR CHARLES MILES LAMBERT MONCK, BARONET.
2. ADDISON JOHN BAKER CRESSWELL, ESQUIRE.
3. EDWARD COLLINGWOOD, ESQUIRE.
4. RALPH CARR, ESQUIRE.
5. THOMAS ANDERSON, ESQUIRE.
6. SIR MATTHEW WHITE RIDLEY, BARONET.
7. JOHN ERRINGTON, ESQUIRE.
8. GEORGE BURDON, ESQUIRE.
9. JAMES HENRY HOLLIS ATKINSON, ESQUIRE.
10. SIR WALTER CALVERLY TREVELYAN, BARONET.
11. CHARLES WILLIAM ORDE, ESQUIRE.
12. JOHN COOKSON, ESQUIRE.
13. THE REVEREND CHARLES THOMAS WHITLEY.
14. JOSEPH YOUNG, ESQUIRE.
15. THE REVEREND EDWARD LAWSON.
16. JOHN PHILIP MITFORD, ESQUIRE.

By the Court.

DICKSON.

SUPERINTENDENT'S ANNUAL REPORT.

*Northumberland County Asylum,
Cottingwood, Morpeth, January 1st, 1864.*

GENTLEMEN,

With the close of another year, it again becomes my duty to submit to you the Annual Report of this Asylum, with the usual Statistical Information.

The number of Patients remaining in the Asylum, on the first of January, 1863, was 222, viz ; 113 men and 109 women. Of these, two, one of each sex, were Private Patients.

The Number admitted during the year was 72, (40 men and 32 women,) making a total under treatment of 294.

Numerous applications were made in the course of the year, for the admission of Lunatics as Private Patients, but in accordance with a resolve of the Committee as expressed in their last Report, and subsequently confirmed in August last, the admissions were restricted to the Paupers of the County.

The changes in the Asylum have been as follows :—

44		have been discharged recovered.
4	ditto	relieved.
1	ditto	unimproved, and
17		have died,

leaving in the Asylum, on the first of January, 1864, 228, viz ; 119 men and 109 women.

Of the two Private Patients mentioned as being in the establishment at the commencement of the year, one was discharged relieved, and the other died.

The daily average number of Patients during the year, was 222.

With respect to those admitted, seven men and four women had previously been inmates of the Asylum, three of the men being re-admitted after an interval of three years.

In six of the admissions, there was a complication of the mental disease with General Paralysis, and in four alike complication with Epilepsy, thus gradually swelling the number of incurables.

Many, when admitted, were in a very weakly state, and one man was brought to the Asylum in such an emaciated and prostrate condition from previous refusal of food, and a long cold journey, as to have hardly any signs of life remaining, and though he rallied for a time, died a fortnight afterwards.

Two other cases call for special remark.—The one was that of a Patient who was only just recovering from a severe attack of Small-pox, and brought from a district where that disease had been unusually prevalent. The utmost precaution, I need hardly say, was taken to prevent the disease, by means of clothing or otherwise, spreading to other inmates of the Asylum. Happily it did not do so, but the fact of such a Patient having to be admitted, gave rise to the resolution, the Committee, I am glad to say, have lately passed in accordance with the 53rd section of the Lunacy Act, 16 & 17 Vict., empowering the Medical Officers of the Asylum to refuse such cases in future.

The other case was that of a female, who was admitted under the Criminal Lunacy Act of 1 & 2 Vict. c. 14, on a charge of purposing to commit murder, advantage appearing to have been taken of the Act to send her to an

Asylum to prevent her being committed to prison, and which, from the singular circumstances of the case, caused some correspondance to pass between the Commissioners in Lunacy and myself. I allude to the case of Helen Englefield. With these exceptions the Admissions were of an ordinary character, and for more detailed information respecting them and the Discharges, I would beg to refer you to the Tables appended to this Report.

I may however mention here that of those discharged recovered, two had been inmates of the Asylum between 4 and 5 years.

The per-centage of cures on the admissions was 61, and on the numbers under treatment 14·96. The per-centage of deaths was 5·78.

With regard to the causes of death, it will be seen by reference to the Table No. 13, that they are of much the same character as in former years, disease of the Brain and Membranes with General Paralysis, forming a large proportion.

There is one death however recorded of an accidental nature, (from burning), about which it is necessary for me to make some remarks, inasmuch as it was the first accident of the kind that has occurred since the opening of the Asylum, and the occasion of the only Inquest which has been held during the year. The Patient referred to (a female,) is the one previously mentioned as having been admitted after a severe attack of Small-pox. She was described as sullen and melancholy, but not suicidal, and previous to the occurrence had much improved in mind, being regularly employed and in every respect going on well. She was however slightly hysterical the day before, and was ordered medicine accordingly. On the morning of the accident, at the usual time of the Patients rising, she informed the Attendant, (who was on duty with them in the dormitories while dressing) that she was not so well, and begged to be allowed to lie a little longer, and have her breakfast in bed. The Attendant, thinking no harm, let her remain for a time, going occasionally to her, while attending to other duties. Shortly afterwards she was seen by another Attendant, rushing screaming from a fire-place in the Gallery, with the partial clothing she had on at the time, on fire. The flames were promptly extinguished, and the Assistant Surgeon was in immediate attendance, and found her much burnt over a large surface of the body. The proper local applications were immediately used, and other remedies administered, but she gradually became worse and died the following day. She was perfectly sensible to the last, but when questioned respecting the accident, seemed to have no recollection as to how it occurred. Deplorable as all deaths of such a nature are in Asylums, we may still be thankful that they are of such rare occurrence, considering the class of people with whom we have to do.

The sanitary state of the Asylum during the past year, has been on the whole good, and I still have pleasure in reporting that there has been no disease of an epidemic character.

The employment of the Patients has been carried on much the same as in former years, between 70 and 80 of each sex being on an average usefully occupied in various ways, as will be seen by reference to Table 14, which is an extract from the Daily Employment Book.

Much progress has continued to be made in the ornamental laying out, and general improvement of the estate; a large extent of land, which had been hitherto waste, has been levelled and brought under cultivation; numerous walks have been formed in the wood; and in two of the Airing Courts, rustic Summer-houses have been erected.

For a statement of the work done by the Male Patients and Attendants, as Joiners, Painters, Tailors, &c., in their respective Workshops, as well also for the work done by the Female Patients in the Sewing-room, I would refer you to the Lists given in the appendix.

The means of recreation have, as heretofore, been carefully attended to, and during the past year the new Bowling-green was first made use of. The dance is still kept up weekly, with latterly the addition of glee-singing, and always looked forward to with pleasure.

Among the improvements and additions to the Asylum that have taken place during the year, I may mention that a Turning Lathe, (adopted upon the recommendation of the Commissioners in Lunacy) has been now some time in operation and found exceedingly useful. A Brew-house has also been erected, and now only requires the internal fittings to be brought into use; and lastly the past year deserves notice, on account of the detached Chapel, which is now in course of erection, and from the progress made is likely to come into occupation within a short period. Its advantages need hardly be mentioned, while at the same time, the present Chapel will give us the double benefit of a General Recreation Hall and Sewing-room, without in the one case infringing, as now, upon the privacy of the Wards, while in the other, it provides in the present Sewing-room, increased sleeping accommodation for female patients, and which, with certain other alterations in the building now in progress of being carried out, will furnish such increased accommodation generally as to obviate the necessity of declaring the Asylum full.

The Commissioners in Lunacy visited the Asylum in January last, and left the following Report :—

*Northumberland Asylum,
January 28th, 1863.*

We have this day visited the Asylum, inspecting all its Wards, Offices, and Premises, and seen every Patient.

Since the 17th of April, 1862, the date of the last Visit of the Commissioners, the changes in the Patients have been as follows :—

	M.	F.	Total.
Admitted	38	38	76
Discharged and removed ...	17	21	38
„ of whom recovered ...	12	18	30
Died (all from ordinary causes) ...	5	7	12
The Patients are now 223 in number, viz :— ...	114	109	223

One of each sex is maintained as a Private Patient. It is not intended to receive any more Patients of that class.

We have satisfaction in reporting as favorably as heretofore of the general tranquility and orderly demeanour of the Patients of both sexes, whom we found clean and neat in person and dress. Their condition in these respects, was creditable to the Institution and the Attendants.

The sanitary state of the Asylum appears to be good, the numbers last registered as under medical treatment, being 5 in the Male and 10 in the Female Division.

The modes of employment, and the numbers of Patients usefully employed are substantially, the same as last reported.

About 80 Patients of each sex attend Divine Service, on Sundays in the Chapel, which is inconveniently crowded.

We again desire to submit to the Committee, the urgent importance of the erection of a detached Chapel of adequate dimensions, and the adoption of the other arrangements consequent thereon, as suggested in the last Report, to which we think it well to refer the Committee.

The several Wards and Rooms, and the Beds and Bedding throughout, were, at the time of our visit, well warmed and ventilated, and in the best order. The supply of Bedding is ample, and the Patients who desire it, have the means of washing in their respective Dormitories.

The Instances of seclusion since the last visit have been few.

The results of the system of night attendance continue, in Mr. Wilson's opinion, to be very satisfactory and beneficial to the Patients. The Patients wet or dirty during the night before our visit, were only 6 on the male side and 4 on the female, two of the former only being dirty.

In reference to the last Report, we have to state as follows :—

1. The Manure Tanks have been brought into effective operation.
2. The Bowling Green and Ground in connection with it, have been completed, and two Summer Houses are about to be erected therein.
3. A Summer House is also about to be introduced in the Airing Court, of No. 3 Female Ward.
4. The Airing Courts are now all laid out as Gardens.
5. The southern windows of the Female Ward, No. 1, and some of those of No. 2 in the same Division, and of Male Ward No. 1, have been furnished with blinds.
6. The recommendation of backs to the forms generally, has been to a great extent carried out.
7. The Female Gallery, No. 3, will, as we are informed, be connected with the Laundry, by a covered way, during the spring.
8. A Turning Lathe has been procured, and a house built for it, adjoining the Engine House.

We have further to report, amongst other improvements, the following :—

1. A walk has been formed in the Wood.
2. Upon the completion of the road of approach, a Kitchen Garden has been formed on the side of the Hill. The road has been planted on both sides.
3. A large extent of land in front of the Asylum, has been laid down in grass, and upwards of two acres of ground have been reclaimed by the labor of the Patients.
4. The lower part of the walls of the Staircases and upper Wards, are in progress of being painted.
5. The Wash-house has been entirely refitted, and rendered comfortable by carrying a steam pipe from the Boiler, in a grated channel, beneath the feet of the Patients engaged in washing.

The weekly charge has been just reduced from 10s. 6d. to 9s. 11d.

We have not referred specifically to all the recommendations contained in the last Report, feeling confident that those not already adopted, will, in due time, be carried out by the Committee. As respects the Bath-rooms we were shown by Mr. Wilson, some Stoves, called "Gill" Stoves, which it is proposed, as an experiment, to place in the passages outside the rooms. Should this arrangement fail of its object, it will become necessary to introduce Fire-places or Stoves in the Bath-rooms.

The Medical and other Records are well kept, and the general condition and management of the Asylum, continue to reflect credit upon Mr. Wilson as Superintendent, who, we are glad to report, is now aided by Mr. Hughes, as Assistant Medical Officer.

R. W. S. LUTWIDGE,	}	Commissioners in Lunacy.
ROBERT NAIRNE,		

In conclusion, my thanks are due to the Chaplain, as heretofore, for his able and willing advice and assistance on many occasions, and to my Colleague and the other Officers and Attendants generally, for their earnest co-operation in the conduct and management of the Asylum, and the manner in which they have discharged their respective duties.

I have the honor to remain,

GENTLEMEN,

Your obedient humble Servant,

RICHARD WILSON.

*The Committee of Visitors,
County Lunatic Asylum,
Cottingwood, Morpeth.*
